Advance Directives

Advance Directives are legal documents, such as a living will or a durable power of attorney for health care, recognized under state law, that allow you to give directions for your future medical care. Advance directives help make your medical preferences known if you become physically or mentally unable to communicate them in your time of need.

It is your right as a patient with decision-making capacity to provide your treatment preferences in advance, and the related responsibilities of health care organizations to accept or refuse medical care. ASC Development Company LLC respects and upholds those rights.

It is our policy, regardless of the contents of any Advance Directive or instructions from a healthcare surrogate or attorney-in-fact, that if an adverse event occurs during your treatment at this facility, we will initiate resuscitative or other stabilizing measures and transfer you to an acute care hospital for further evaluation. At the acute care hospital, further treatments or withdrawal of treatment measures already begun will be ordered in accordance with your wishes, Advance Directive, or Healthcare Power of Attorney. Your agreement with this facility's policy will not revoke or invalidate any current healthcare directive or healthcare power of attorney.

If you wish to complete an Advance Directive, you can get official state forms at our facility or online by selecting your state from the provided list. After you have made, signed and finalized your advance care plan, it's important to provide your healthcare provider with a copy for your medical record.

Please sign below to acknowledge you have discussed your current advance directive, if any, with our facility.

Advance Directive Notification:

All patients have the right to participate in their own healthcare decisions and to make Advance Directives or to execute a Power of Attorney that authorizes others to make decisions on their behalf based on the patient's expressed wishes when the patient is unable to make decisions or communicate decisions. National Spine & Pain Centers respects and upholds those rights.

However, unlike in an acute care hospital setting, the Center does not routinely perform "high-risk" procedures. Most procedures performed in this facility are considered to be of minimal risk. Of course, no surgery is without risk. You will discuss the specifics of your procedure with your physician, who can answer your questions as to its risks, your expected recovery, and care after surgery.

Therefore, it is our policy, regardless of the contents of any Advance Directive or instructions from a health care surrogate or attorney-in-fact, that if an adverse event occurs during your treatment at this facility, we will initiate resuscitative or other stabilizing measures and transfer you to an acute care hospital for further evaluation. At the acute care hospital, further treatments or withdrawal of treatment measures already begun will be ordered in accordance with your wishes, Advance Directive, or Healthcare Power of Attorney. Your agreement with this facility's policy will not revoke or invalidate any current health care directive or health care power of attorney.

If you wish to complete an Advance Directive, you can get official state forms at our facility or online by selecting your state.

Maryland – <https://www.marylandattorneygeneral.gov/Health%20Policy%20Documents/adirective.pdf>

Virginia – <https://nebula.wsimg.com/4c68ab23c190a5d9e2188453dc05bab8AccessKeyId=E883ECC34BCFA18EB5EA&disposition=0&alloworigin=1>

If you disagree with this facility's policies, we will be pleased to assist you in rescheduling your procedure.

If a patient is adjudged incompetent under the state's laws, the rights of the patient are exercised by the person appointed and /or the legal representative designated by the patient under State law to act on the patient's behalf. The center will accept a Court Appointed Guardian, Dual Power of Attorney, or a Health Care Surrogate.

Notice of Financial Interest:

Federal regulations require that we inform you that our physicians have a financial interest in the Surgery Center. An interest in this facility enables them to have a voice in the Administrative and Medical Policy of this healthcare institution. This involvement helps us ensure the finest quality surgical care for their patients.

If you have a problem or complaint, please speak to the receptionist or your caregiver. We will address your concern(s) promptly.
